The Western Monmouth Utilities Authority holds regularly scheduled meetings each month for the purpose of conducting business.

At each regularly scheduled meeting of the Western Monmouth Utilities Authority, there is a portion of the meeting dedicated for "PUBLIC COMMENT" on the Agenda. Any member of the public wishing to be heard may address the Commissioners at this time. If your questions or comments are of a technical nature or require any research or consultation with an Authority Professional, it is not likely that you will receive an immediate response. In most cases you should expect to receive a reply at the next regularly scheduled meeting of the Authority.

If you have a request of the Commissioners and you know in advance of a scheduled meeting, please put your request in writing and e-mail or fax or bring it in person to the Authority, and it will be placed on the Agenda for discussion at the next scheduled WORKSHOP meeting. Please send as much information or documentation as you have, so the Commissioners are able to understand your request completely and form a reply.

The meeting schedule is on this website and you may choose the link "Contact Us" and e-mail your request directly if you are so inclined. A minimum of 48 hours in advance of the meeting is required (not including the meeting day) so that the Commissioners may have time to consult with Professionals or ask questions or seek additional information, in an effort to reply to your request.

Almost all actions by the Western Monmouth Utilities Authority are formalized by Resolution. Resolutions are presented in writing at Public Meetings and are voted on by the Commissioners at the Public Meeting. A copy of the Resolution is available on the next scheduled workday immediately after the meeting. Resolutions can be e-mailed, faxed or mailed, whatever method is preferred by the recipient.

If you require any assistance, please contact the Authority and we will be more than happy to assist you.
